Scholarship Program high school Students

Purpose of the project: helping students from poor families to complete secondary education. Funded by the "Trust for a Social Alternative Foundation" (TSA). The program is a strong incentive to receive secondary and higher education for children from extremely poor families.
Funded under the Operational Program "Human Resources Development" (HRD). The purpose of the project was to return to school 72 children in 2-8th grade who dropped out of the education system. A socio-pedagogical study was carried out with these children and families. The pupils were provided with textbooks and all the necessary materials. All successfully passed to a higher class and were returned to the education system.
Vulnerable Employees - Training of Occupational Mediators and Assistant Teachers of Roma Origin

- Is focused on the training of Roma labor mediators, financed under the NGO support program under the EEA Financial Mechanism. The training includes 102 mediators from all over the country.
"Ready for School"

The project is being developed by the "Trust for Social Alternative Foundation" (TSA). The project aims to provide information on approaches to increase the coverage and attendance of children from disadvantaged families in kindergartens as well as to promote their full inclusion in early education in Bulgaria. The target group is children aged 3-6 years, selected according to certain criteria, of which the most disadvantaged are socio-economic families, Roma.
"Education is our Future"

The project is a continuation of the previous projects, on which the Association has worked. Emphasis on the goal is to achieve quality education. Funding Foundation – TSA. Objectives and intentions set in the project equal access to quality education of children and students through activities in compulsory, freely-elected and obligatory-elective training aimed at quality education and motivation for higher education.
The organization implements projects in the field of Healthcare as well. The main activities involve:

- Prevention and control of Tuberculosis in Roma community
- Introducing paramedics of Roma origin in the Emergency healthcare units.
Conclusion of our hard work:

Association "Diverse and Equal" follows the achievement of the objectives and tasks set out in its Statute. Guided by the understanding that the results of educational interventions stand out after long work in certain schools and students, the Association has worked for five years in the education system of the Botevgrad municipality. On the basis of a comparative analysis of the data reflected in adequate indicators in each subsequent project brings something new, both in terms of activities and the scope of the target group and families. The target group includes children aged 3-6 and students from the three levels of the education system. Good pedagogical practice has been developed. It works on the principles of timely awareness of the persons involved, transparency and accountability.

The association works very well with the local government, which in turn takes very good care of the education of young people.

At the same time, the Association works with Roma communities and young people on topical issues affecting the process of Roma integration, improving their living conditions and stimulating their civic consciousness and behavior.
